You're the fucking real terrorist bud. Too bad this wasn't a few decades ago because you'd already be hanging from a light pole downtown Ottawa for your treasonous crimes against Canadians. You're words disgust me and make me want to donate more and more to those truckers. You're not gonna win this fight Dave. You're going down with Justin's ship and you'll end up right where you belong. You're fucking cancer.

You want to prosecute and intimidate donators? Fucking bring it bud. You and no one else in government will tell me what I can do with my money.
